
ART 102

Model Figures

Introduction

There are many times in life where “witch” labels as girls and “warlocks” for boys. So, my concept is to document everyone can be a “witch” no matter what gender he or she is. I wanted my art to be inclusive and reduce the sexist ideas in witches and magic is for everyone, not just girls. In this documentation I wanted to show that boys could be considered as witches as well.
